

Slide 1

Administrivia

- Two more homeworks (one problem each) just posted. Nominally due Friday but accepted without penalty through next Wednesday (at the usual 11:59pm). Somewhat hastily written, so if something's not clear, please ask!
- Review sheet for final on Web. Also sample solutions for quizzes and homeworks 1 through 6. Sample solution for midterm in hardcopy today.
- I will have office hours this week and next. Details by e-mail.

Slide 2

What I Hope You Got From This Course

- Exposure to a command-line environment (new to many?).
- If you came into the course with no programming background, a basic understanding of what programming is. If not, basics of an additional language.
- Either way — basics of a language that's fairly abstract, and thus interesting: Not all languages have such a nice variety of collections, collection methods, plus there's the "functional" aspect (functions can use other functions as parameters).

Minute Essay

- None — sign in.
