

Slide 1

Administrivia

- Homework 3 on the Web (almost — second programming problem still in work). Due in a week.
- Reading assignments and “notes” on the “lecture topics and assignments” page are out of synch with what I’ve been doing in class. At some point you should read all of chapter 3, and I’ll revise the slides so they better match what we did and what’s in the textbook (so you can use them as a study guide).

Slide 2

Memory Management — A Few More Things

- (Review unused slides from previous lectures.)
- A correction: Apparently inverted page tables *are* used, now that many systems are “64-bit”.

Minute Essay

- None — quiz.
