## Administrivia

- (None?)

**Slide 1**

## Generic Master/Worker Program, Continued

- Previously we started writing a generic master/worker program, where tasks are simulated by just waiting.

- Look at slightly improved OpenMP version; write MPI version.

**Slide 2**

## Minute Essay

- Thinking back over everything in the course (homeworks, lectures): What did you find the most interesting? the most difficult?

**Slide 3**
