Show Your Code

5/1/2009

Opening Discussion

- Minute Essay comments
  - Comments on environments were very interesting. Many people wanted more time with Eclipse. Some wanted BlueJ left out.
  - Office hours during the next 1.5 weeks.
  - When to use List, array, or HashMap?

Course Evaluations

- Let's take the next 15-20 minutes to do course evals.

- Please take time to provide significant feedback and constructive criticism.

- As you can tell, I change this class to try to improve it. Your feedback helps with that process.

Show Your Code

- Now it is time to look at people's code for the last time this semester.

Minute Essay

- When do you think that the review sessions should be?
