Show Your Code

2-15-2010

Opening Discussion

- Minute Essay comments
  - Parentheses in the conditional boolean.
  - Going back over the list code in findClosestHouse.
    - Significance of <...>
    - h=houseList.get(i), why i?
  - Failing at logic.

Show Your Code

- Let's go through and look at people's solutions to the interclass problems for loops and lists.

Hungry Alligator

- Let's make our alligator so that it can eat the people.

- There are other touches we can add to make this more like a game.

Minute Essay

- What types of things would you like to see as examples in the second half of the semester?
    - HTML processing
    - Text processing
    - Spreadsheet style processing
    - Optimal solution finding
    - Pretty pictures/games
    - Something else?
