Course Conclusion

12-5-2011

Opening Discussion

- Minute essay comments:

  - Pizza? Music? Balloons? Unicorns?

  - Making a game.

  - There will be a review sheet.

  - There will be a review session.

  - The final is not explicitly cumulative.

  - There will be extra credit.

  - Office hours.

What We Have Done?

- Basic programming logic and problem solving.
  - Statements, conditionals, loops, recursion.
- Functions and functional style.
- Files for accessing data. XML to give it meaning.
- GUIs and Graphics.
- Goal was to make you think and get you thinking about things in new ways.

Course Evaluations

- Now we are going to do course evaluations.

- They are electronic so you will do them on your browser.

- Please be informative and provide constructive criticism. Hopefully you have seen that I do utilize student input for this course. That includes these forms.

- You are only the third semester using Scala. I know some things that need to improve, but could use your input as well.

Minute Essay

- What times can you NOT do a review session?
