

## Group Evaluation for CSCI 3390 – Game Design

Each member of your group needs to answer the following questions in an e-mail sent to Dr. Lewis.

1. What is your role in your group?
2. How would you rate your performance on your segment of the project?
3. What things have happened regarding group dynamics that have hampered your progress?
4. What things in your group have worked best and have helped you make progress?
5. For each of the other members of your group given an evaluation of how well you feel he/she has performed on the project. You can leave out any members of the group that you don't interact with and don't have a basis for evaluation for.
