

Slide 1

Administrivia

- Reminder: Homework 5 due today.
- Grades for Homework 1 and Homework 2 sent by e-mail earlier today.
- Homework 6 (really a small project) on Web; due next Wednesday.

Slide 2

Multithreaded Programming in C with OpenMP

- Last time I mentioned OpenMP language extensions for multithreaded programming.
- Let's look at a short example — numerical integration to compute π .

Course Topics — Recap

- Basic C programming, for people who already know how to write programs in some other language (such as Java).
- The Linux/UNIX command-line environment and command-line development tools.
- Basics of computer arithmetic.
- Many interesting tangents!

Slide 3

Minute Essay

- How did the course compare to your expectations/goals? Did you learn what you hoped to learn?
