

Slide 1

Administrivia

- Homework 3 to be on Web early tomorrow; due Monday after spring break.

Slide 2

Arrays in C — Example

- Let's write a sort program ...
- (Where to get input? let's just generate random values, using library function `rand()`.)

Strings in C — Example

- (Recall/review slides from last time.)
- Let's write a short example — a program to count upper-case characters in strings.
