Requirements Analysis Example

- As an example of what I have in mind, let's try doing a requirements analysis for a simpler problem:
- Goal is to design something that lets students sign up for advising appointments online (rather than using paper sign-up sheets).
- What are the use cases? Who are the actors? Discuss in class, and I will put results/writeup on Web.

Minute Essay

- What did you find most interesting/valuable about Mr. Cornell's talk today?
