Administrivia

- Groups should choose a group leaders; group leaders should notify me, all ASAP.

Slide 1

Design Project, Continued

- Description posted on Web today. Detailed requirements for reports, etc., coming later.

- In effect, you're designing something for one main "customer" (me) and many other/potential customers (yourselves and classmates). Interviewing the customer(s) about requirements is part of the design process.

- Update/clarification to project description: Collaborators have the same view of source code, and anyone can modify it.

- Questions?
