Administrivia

- I've read through the midterm reports. They look good in general, but I have some questions/comments for individual groups. Those will go out by e-mail to group leaders, I hope later today.
I'll also send out a short midterm grade report to each person later this week (but it looks like everyone's doing at least reasonably well).
- Remember that design presentations are scheduled for April 21 and that prototype code and final reports/evaluations are due April 28. You probably should plan to have your prototype in good enough shape to demo by April 21.
- If I haven't said this already: To some extent I'll be evaluating each group's results in comparison to those of other groups. However, I'll also take into account group size.
- Any questions about the second phase of the project?
