## Administrivia

- Homeworks all due now (or ASAP). Not accepted past Friday at 5pm.

- Projects due at scheduled final time (Tuesday 12/13 8:30am). We need a bit more than an hour for project presentations. Start at 10am.

- Questions about grading?

**Slide 1**

## Review of Course

- "PAD I for parallel programming"? We covered:

  - Three languages/libraries — MPI, OpenMP, Java.

  - How to find and exploit concurrency in programs.

- We also did several running examples (numerical integration, molecular dynamics, heat diffusion) and some homeworks.
