

Network Diagram Alternate Assignment

(This assignment gives an opportunity to students who missed the tour of the Trinity's Network Room to learn from their classmates' diagrams and show that they have done a good job making them easy to follow and understand)

Directions:

- Open the Word file called TUnetwork in the 5tunetwork folder. It is blank, but you will draw your **own interpretation** of how the network functions based on studying diagrams done by others in the class. Use the instructions in the Class 5 notes for further details about what to include.
- When you have completed your interpretive diagram, you should:
 - Give credit to three students whose diagrams helped you the most by listing them at the bottom of the page as a "Thanks to" note
 - Email Ms. Belisle and let her know that the diagram is finished
 - Complete this assignment by Monday, September 21st, at 8:00 AM in order to have our grades caught up in time for Tuesday's class
