

The wiring goes through the port in the wall, then to the patch panel and the network data closet.

My computer plugs into the wall where I can access internet connection. AT&T is the supplier.

My internet is provided by AT&T, my Y: drive and group folders are on by the tcc-tiger server. My email is provided by the ITS Harden.

# Trinity Network

The connection between Ruth Taylor, Halsell, and Cobb-Racey flows on fiber optic wiring. (Fiber optic cables are used between buildings, and Ethernet is used within the buildings).

## Cobb-Racey Halsell Center

= Fiber optic
