How to put a YouTube video into your PowerPoint presentation

©Lyn Belisle

Make sure the Developer tab is showing in the ribbon.

If it is not, go to File>PowerPoint Options>Customize ribbon and check Developer:

On the Developer tab, click More Controls:

Scroll down until you see Shockwave Flash Object and choose that

Using your mouse, draw a rectangle the size of the video screen you want, then right click:

Go to Properties and select Movie:

Height	408
left	78
Loop	True
Menu	True
Movie	
MovieData	
Playing	True
Profile	False
ProfileAddress	
ProfilePort	0
Quality	1
Quality2	High
SAlign	
Scale	ShowAll

Copy the URL of the YouTube movie you want to embed:

<u> </u>	Smartphone pictures pose priva

Paste it in the Movie space:

Loop	True
Menu	True
Movie	http://www.youtube.com/watch?v=N2vARzvWxwY
MovieData	
Playing	True

Take out the "watch?" and change the "=" to "/"

	Loop	Irue
	Menu	True
	Movie	http://www.youtube.com/v/N2vARzvWxwY
	MovieData	
	Playing	True

Close out, save and run the slide show.
