Trinity University

Sir or Madam: [...]

If you are a university Internet Service Provider (ISP), you have received this letter because we have identified a user on your network reproducing or distributing an unauthorized copy of a copyrighted sound recording. [...]

If you are a university Internet subscriber (user), you have received this letter because your Internet account was used to illegally copy and/or distribute copyrighted music over the Internet through a peer to peer application.

[...]

To avoid legal consequences, a college user should immediately delete and disable access to the unauthorized music on your computer. Learn how at the "About Music Copyright Notices" section of www.campusdownloading.com. That section also contains practical information about:

- How you were identified and why illegal downloading is not anonymous
- What next steps to take
- Where to get legal music online

We encourage Internet subscribers to visit the website www.musicunited.org, which contains valuable information about what is legal and what is not when it comes to copying music. It also links to some of the more popular online music services where fans can go to listen to and/or purchase their favorite songs.

[...]

Thank you in advance for your cooperation. If you have any questions, please visit the "About Music Copyright Notices" section of www.campusdownloading.com.

Sincerely,
Jeremy Landis
