

# Show Your Code

10/28/2009

# Opening Discussion

- What did we do last class?
- Minute Essay comments
  - Adding sounds in Greenfoot.
  - When should you start working on the projects?

# Show Your Code

- Let's look at people's code to the various options.

# Improved File Handling

- At the end of last class we talked about a few changes we could make in how we deal with files.
- Today I want finish the `writeFile()` method that uses a `PrintWriter` to output a CSV file.

# Minute Essay

- What do you find to be most challenging about the material we have covered so far in this class? What things do you still get hung up on?
