

Completing the Applet

11/25/2009

Opening Discussion

- Minute essay responses
 - Why do we make the ImageObserver null?
 - Could we have our actors represented by another shape other than a rectangle?

Last Class

- Last class we started writing some code that would allow us to treat an applet more like Greenfoot.
- We wrote an applet and began work on our version of the actor class.

Finishing Up

- Loading images with ImageIO.
- Adding the timer.
- Dealing with input.

Minute Essay

- What are your plans for Thanksgiving?
