

# Show Your Code

11/30/2009

# Opening Discussion

- What did we talk about last week?
- Minute essay responses
  - Class speed and student responsiveness.
  - //TODO
  - Quiz distribution and collection (back to front vs. front to back)

# Show Your Code

- Let's look at people's code for the interclass problems.

# Playing Around

- With any time we have left we should make it so that our mouse controlled actor can pick up the other actors in our applet.

# Minute Essay

- What should we do for our last topic?
