

Animating Applets

11-22-2010

Opening Discussion

- Do you have any questions about the quiz?
- Minute essay comments:
 - Can you use Timers in Greenfoot?
 - What are some projects that people have done in the past?
 - Wish you had taken more CS in the past?
 - Jumping jacks animation.
 - Mein Deutch ist schlect.

Loading Images

- To load in images we can use the `javax.imageio.ImageIO` class.
- It has a `read` method to read from a `File`, but that won't work in an Applet. (This is why I provided the `main` method for you.)
- The `read` method that uses a `URL` will work, but only for certain `URLs`.

Minute Essay

- What questions do you have?
- What are your Thanksgiving plans?
