

# Show Your Code

2-22-2010

# Opening Discussion

- What did we do last class?
- Minute essay responses
  - Things we haven't talked about in a while.

# Show Your Code

- Let's look at people's code for the interclass problems.

# Review

- There is a review sheet posted on the web page. Let's take a minute to go over it.
- The most frequently requested topics for review were Lists and loops. These were followed by arrays and ifs.
- Objects with properties.
- Switch and while not required for exam.

# Minute Essay

- Do you plan on attending a study session? If so, which one? (Both is also a valid answer.)
- The midterm will be next class.
