Show Your Code

3-5-2010

Opening Discussion

- What did we do last class?

- Minute Essay comments
    - Difference between null and 0.
    - Should you start working on the project now?
    - Code for World.

Show Your Code

- Let's look at people's code to the various options.

Finishing Checking the Board

- Last time we got through horizontal checks.

- We could copy and paste a bunch of code then make minor changes, but it would be better to think about what they have in common and write a solution that works for all orientations.

Minute Essay

- What do you find to be most challenging about the material we have covered so far in this class? What things do you still get hung up on?
