Opening Discussion

- Do you have any questions about the course or what we have been doing?

Show Your Code

- Let's look at some solutions to the ICP.

Adding Activity

- For our applet to resemble Greenfoot, we have to have the ability to make our actors do something.
- For this we need to make the applet have a timer.
- What should happen when the timer fires?

Minute Essay

- Has taking this class helped you to feel more comfortable using computers in general?
