Opening Discussion

- Do you have any question about the quiz?
- Minute essay comments:
 - Difference between actors and “normal” multithreading.
 - How would my quiz program deal with drawing the BST?
 - Why don't I have you type quizzes now?
- ICP solutions

My Actor Epiphany

- A system where everything is an actor is automatically multithreaded and safe.
- The key is making all significant aspects into actors.

Playing with Actors

- Let's play a little with Actors given what we know so far.
