Perl Regular Expressions
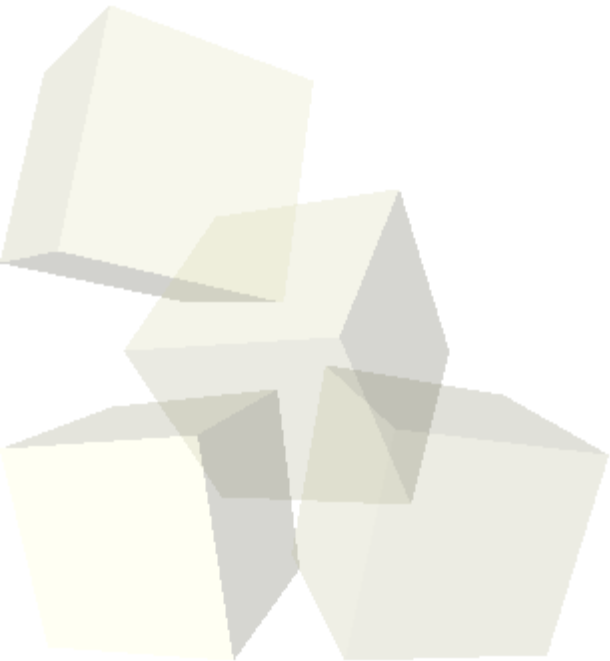

10-30-2006

- What did we talk about last class?
- Do you have any questions about the reading?
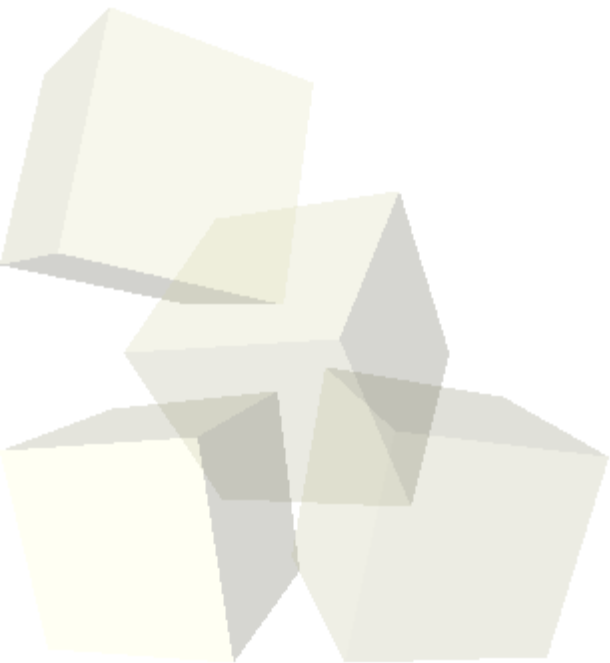

- We want to write some code that employs Perl regular expressions.
- EPIC (Perl in Eclipse) also has a tool for testing regular expressions. Let's go look at that a bit.
- Now we want to do some simple examples of regular expressions in Perl. Let's start by redoing our telephone book code from last time, but now I want the phone numbers on the same line as the names.
- How would you write grep in Perl?
- How would you change all instances of hyperion to titania?

- Assignment #7 is due on Wednesday.
- There is no class on Friday.
