

Closing Remarks

5/1/2009

Opening Discussion

- Do you have any questions about your project?

Course Evals

- It is time to do course evaluations. We are doing them electronically so there aren't any forms to carry down the hall, but someone should read the instructions.

Minute Essay

- Remember to show up for the project presentation. If you have questions send me e-mail and we can probably find a time to get together.
