Resizing Pictures in MS Word 2007

Insert your picture:

Here is the picture that you chose:

When the picture is inserted, it is automatically resized to fit inside the page – in this case, it is 20% of its original size:

Height: 23.78	8" Width: 31.78"
	Reget
	Close

You can make it smaller by dragging the corner, but the file size will stay the same:

To reduce the file size, compress the picture:
